LOCATION

Bauru, SP - Brazil

CORE COMPETENCIES

- Substation Commissioning
- Protection & Control Systems
- SCADA / EMS Integration
- Telecom (SDH/DWDM/MPLS)
- Network Infrastructure
- Data Center Management
- Cybersecurity & Firewalls
- Virtualization (VMware)
- Factory & Field Acceptance Tests
- Team Leadership

LANGUAGES

Portuguese	Native
English	Professional Working
Spanish	Limited Working
Italian	Elementary

CERTIFICATIONS

- Protection Relays MiCOM P14D, P14x, P74x
- Control & Supervision Systems C264
- MS Project: Planning to Control with Earned Value
- MS Excel: Basic to Advanced

Ricardo Bueno

Commissioning Coordinator | Bachelor of Engineering

PROFESSIONAL SUMMARY

Results-driven Commissioning Coordinator with 20+ years of experience in the energy sector, specializing in the commissioning of high-voltage electrical substations. Proven expertise in protection, control, SCADA, IT, and telecommunications systems. Skilled in leading multidisciplinary teams to deliver substations fully commissioned and integrated into Brazil's National Interconnected System (SIN). Strong background in data center management, network engineering (MPLS/SDH/DWDM), virtualization, and cybersecurity. Experienced in conducting Factory Acceptance Tests (FAF) and Field Acceptance Tests (TAC) for major OEMs including Siemens, GE, ABB, and Artech.

PROFESSIONAL EXPERIENCE

Commissioning Coordinator

Zopone Engenharia Jan 2022 - Present | Bauru, SP, Brazil

- Lead commissioning teams for electrical substations across protection, control, IT, and telecom disciplines, ensuring full system readiness for energization and SIN integration.
- Coordinate and execute operational tests with the ONS (National System Operator) and ZEnergy Operations Center.
- Manage the technical coordination of ZEnergy's Substation Operation Center (COT) covering Telecom, SPCS, Control, and IT.
- Oversee construction and management of the ZEnergy data center, including network architecture, L2/L3 routing topology, and VMware virtualization with Veeam backup.
- Configure and maintain switches, routers, firewalls, and the internal MPLS network interconnecting substations with ONS via carriers (Oi, Algar, Embratel).
- Develop SCADA point list standards and documentation to ensure system accuracy and interoperability.
- Perform TAF and TAC for protection and control systems (Siemens, GE, ABB, Artech) and SCADA integration.
- Manage SDH, PDH, DWDM telecom equipment and optical amplifier infrastructure.

Electrical Maintenance Technician

Zopone Engenharia Jan 2021 - Jul 2023 | Bauru, SP, Brazil

- Performed electrical maintenance and commissioning support for substation projects.
- Assisted in protection relay testing, control panel wiring verification, and system integration.

EDUCATION

Postgraduate - Network Engineering

PUC Minas

Jul 2024 - Aug 2025

Postgraduate - Telecom (Networks & Security)

Amanguera

Jul 2024 - Jun 2025

Bachelor of Engineering - Electrical & Electronic

Centro Universitário Eniac

Dec 2020 - Jun 2024

Technology - Industrial Electronics

Centro Universitário Eniac

Dec 2020 - Dec 2023

Technical Diploma - Electronics

Instituto Monitor

2009 - 2010

TECHNICAL SKILLS

PROTECTION

MICOM P14D/P14x/P74x, Siemens, GE, ABB, Arteché relays

SCADA

SAGE, Point list standardization, HMI configuration

TELECOM

SDH, PDH, DWDM, MPLS, Optical amplifiers, Fiber optics

NETWORKING

Switches, Routers, Firewalls, MPLS design, L2/L3 routing

VIRTUALIZATION

VMware, Veeam Backup, Virtual machine management

MONITORING

Zabbix, Grafana, Asterisk PBX

SECURITY

NSM Firewall, Cybersecurity, Remote access management

PROFESSIONAL EXPERIENCE (CONTINUED)

Telecommunications Technician

Brasnorte Energia

Jul 2016 - Jan 2021 | 4 years 7 months

- Managed telecommunications infrastructure for energy transmission substations.
- Configured and maintained SDH, PDH, and DWDM equipment for high-availability communication networks.
- Supported SCADA system integration and remote monitoring capabilities.
- Performed routine maintenance of digital disturbance recorders (RDP) and oscillograph acquisition systems.

Substation Maintenance Technician

Lumitrans

Aug 2013 - Jul 2016 | 3 years

- Performed preventive and corrective maintenance on medium and high-voltage substation equipment.
- Supported commissioning activities and protection relay testing.

Senior Systems Technician

ALSTOM Grid

Aug 2012 - Aug 2013 | 1 year 1 month

- Commissioned telecommunications systems for grid infrastructure projects.
- Worked with ALSTOM's protection and automation solutions for substation integration.

Telecom, Command & Control Technician

EBTE

Oct 2010 - Sep 2012 | 2 years | Campo Novo do Parecis, MT

- Maintained telecom, command, and control systems for energy transmission infrastructure.
- Supported field operations for remote substation sites.

DWDM Deployment Technician

Padtec S/A

Feb 2010 - Oct 2010 | 9 months

- Deployed DWDM optical networking solutions for telecommunications carriers.

Transmission Technician

Estacao Engenharia

2009 - 2010 | 1 year

- Worked with SDH, DWDM, PDH, optical cabinets, optical modems, fiber splicing, and DSLAM equipment.

Deployment Technician

Ensel Engenharia

Feb 2008 - Nov 2008 | 10 months

- Supported telecommunications deployment projects across Brazil.

ADSL Technician

Estacao Engenharia

Mar 2006 - Nov 2008 | 2 years 9 months

- Installed and maintained ADSL broadband services in the Rio Claro region.
